# **Board of Directors' Annual Report AHI CARRIER**

#### SOUTH EASTERN EUROPE AIR-CONDITIONING SINGLE MEMBER SOCIETE ANONYME

Relating to the financial statements for the financial year 1 January 2020 to 31 December 2020

To the Shareholders,

This report of the Board of Directors of AHI CARRIER SOUTH EASTERN EUROPE AIR CONDITIONING SINGLE MEMBER SA (the "AHI Carrier" or the "Company") has been prepared based on the provisions of articles 150 and 158 of Law 45 (Separate and Consolidated) of 31 December 2020 and the year ended on that date. The AHI Carrier Group (the "Group"), in addition to the Company, includes subsidiaries, in which AHI Carrier directly or indirectly exercises control. The Company and Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union (EU).

This report includes the true and fair view of evolution and performance of the Company's activities and its financial position, during the period 1 January 2020 to 31 December 2020, its objectives and strategy, the reporting of the important events that took place during 2020, as well as the most important events after the end of the year. The report also contains the description of the main risks and uncertainties for the next year, the listing of the significant transactions of the Company and the Group with their related parties, as well as additional information as required by the relevant legislation.

#### **A. Report 2020**

#### Group

The consolidated operating income (net sales plus other income) amounted to Euro 55.841 thousand in 2020, decreased by 17,8% compared to 2019. The total operating expenses of the Group, before depreciation, impairment and financial results amounted to Euro 50.947 thousand in 2020, marking a decrease of 18,5% compared to 2019. The consolidated expenses for depreciation and impairment amounted to Euro 1.049 thousand decreased by 3,9%. Operating profits before financial and investment activities of the Group amounted to Euro 3.845 thousand compared to Euro 4.303 thousand in 2019. Debt interest and related expenses, excluding debit exchange differences, amounted to Euro 233 thousand, decreased by 35,2%, mainly reflecting the elimination of loans and secondly the decrease of discounts due to early payments. The income tax of the Group amounted to Euro 881 thousand in 2020, reduced by 24,0% compared to 2019, mainly reflecting the effect of the reduced earnings before tax and secondly due to reduced tax rate which applied in the calculation of the deferred tax. The profits of the Group from operating activities (attributable to the shareholders of the Company) amounted to Euro 2.687 thousand in 2020, compared to Euro 2.673 thousand in 2019.

The consolidated non-current assets of the Group amounted to Euro 3.819 thousand in 2020, decreased by 1,5% compared to 2019. Group's inventories amounted to Euro 11.139 thousand, recording a decrease of 14,1% compared to 2019. The commercial receivables of the Group amounted to Euro 21.670 thousand, marking a decrease of 14,9% compared to 2019, while the cash and cash equivalents amounted to Euro 10.517 thousand, marking a significant increase of 110,3% compared to 2019. The Group's borrowing, including the effect of IFRS 16, amounted to Euro 1.096 thousand in 2020, decreased by 57,6% compared to 2019. Finally, commercial and other Short-term liabilities amounted, at a consolidated level, to Euro 9.150 thousand, recording a decrease of 10,0% compared to 2019.

Listed below are some key indicators for a better understanding of the Group's position for 2020:

|   |   |                | The                               | group                             |  |  |

#### The company

The Company's operating income (net sales plus other income) amounted to Euro 46.664 thousand in 2020, reduced by 18,9% compared to 2019. The total operating expenses of the Company, before depreciation, impairment and financial results amounted to Euro 43.372 thousand in 2020 marking a decrease of 19,7% compared to 2019. Corporate expenses for depreciation and impairment amounted to Euro 884 thousand with a minor decrease of 0,6%. Operating profit before financial and investment activities of the Company amounted to Euro 2,408 thousand compared to Euro 2,602 thousand in 2019. Debt interest and related expenses, excluding debt exchange differences, amounted to Euro 217 thousand, decreased by 35,7%, mainly reflecting the elimination of loans and secondly the decrease of discounts due to early payments. The Company's income tax amounted to Euro 762 thousand in 2020, reduced by 24,2% compared to 2019 mainly reflecting the effect of the reduced earnings before tax and secondly due to reduced tax rate which applied in the calculation of the deferred tax. The profits of the Company for the year from ongoing activities (attributable to the shareholders of the Company) amounted to Euro 1.484 thousand in 2020, compared to Euro 1.545thousand in 2019.

The non-current assets of the Company amounted to Euro 3.189 thousand in 2020, decreased by 11,9% compared to 2019, mainly reflecting the decrease of deferred tax assets which resulted by the decrease of tax rate used for the calculation. The Company's inventories amounted to Euro 9.605 thousand marking a decrease of 18,7% compared to 2019. The commercial receivables of the Company amounted to Euro 20.198 thousand, marking an decrease of 12,1% compared to 2019, while the cash and cash equivalents amounted to Euro 7.280 thousand, recording a significant increase of 150,0% compared to 2019. The Company's borrowing, including the effect of IFRS 16, amounted to Euro 687 thousand in 2020, decreased by 72,0% compared to 2019. Finally, commercial and other Short-term liabilities amounted, at separate level, to Euro 8.041thousand, recording a decrease of 6,8% compared to 2019.

Listed below are some key indicators for a better understanding of the Company's position for 2020:

#### **B. OBJECTIVES AND STRATEGY**

AHI Carrier S.E. Europe Single Member S.A is responsible for the European activity of AHI CARRIER FZC in Central and South Eastern Europe, for the distribution and after-sales services of Carrier, Toshiba and Totaline air conditioning products.

Mission of the Group is to be the number one choice of customers in air conditioning, heating, ventilation and industrial refrigeration applications throughout its' responsibility region, creating a cozy and productive environment despite the weather conditions, by offering solutions which provide air conditions of high quality.

The quality and efficiency of the services and products offered are a commitment for the Group to continuously strengthen its leadership position, providing products with durability and high performance that exceed the expectations of its customers.

The Group's personnel work every day to provide innovative and reliable products and services that improve the environment and the living conditions of all, while the needs of customers are at the heart of the interest and that is why it is an ongoing effort to anticipate and address them, through the provision of quality products/services and innovative solutions that create a competitive advantage.

Compliance with the highest standards of ethical and professional conduct is a standard commitment of the Group. This includes the relationships maintained with its customers, suppliers, competitors, local communities in which the Group operates and of course its employees.

The main asset of the Group is its human resources and that is why its personal and professional development is encouraged, investing in its training, and aiming at the creation of a working environment dominated by meritocracy, respect and acceptance of diversity. The protection of the safety of employees, customers and the environment is also a fundamental value for the Group.

The permanent goal of the Management team of AHI Carrier Group is to retain a leading position in the relevant market, being a modern high-performance Group, by using its technological excellence and consistently providing excellent experience to its customers.

In particular, the AHI Carrier Group seeks to remain a leader in air conditioning, heating, ventilation and industrial cooling applications, to ensure a leading position in the countries in which it operates, to offer a leading customer service experience, to develop its staff and attract talented employees, to enhance the value created for shareholders and to continue its positive contribution to society and the economy.

#### C. SIGNIFICANT EVENTS DURING THE CLOSING YEAR

#### **Effects of the Covid-19 pandemic**

2020 was marked by the unprecedented crisis in global health and economy led by the spread of the Covid-19 pandemic and the response measures taken at domestic and international level. A significant part of the domestic and global economy ceased activity in whole or partially, for a significant period of time and significant restrictions were placed on the movement of citizens, with the result that all domestic and international consumption was dealt a major blow in both quantitative and qualitative terms.

In Greece, the virus was first detected at the end of February 2020, leading to national quarantine and the Management adopting a pandemic plan, implemented in the first half of March, responding immediately to national and international changes. In early May, a gradual relaxation of quarantine restrictions began, which continued until June. During the summer, however, the increase in Covid-19 cases in Greece led to the early end of the tourist season and the reintroduction of restrictive measures while measures of limited reopening of shops were implemented during the Christmas holiday season. Throughout

the pandemic, the Management acted continuously on the basis of the instructions and decisions of all relevant public organizations, in accordance with the requirements and action plan adopted by the Greek authorities.

The pandemic significantly accelerated the Group's digital transformation, as changes were made to its day-to-day operations. Since the start of quarantine, the Management has also taken a number of preventive measures, with regard to the health and safety of its employees, which is its main priority, implementing all protocols required in accordance with the instructions of the competent health authorities and taking all necessary measures by activating strict regulations, such as the extensive use of "teleworking", the restriction on internal and external meetings with a physical presence, the distribution of protective equipment to workers, the organization of seminars on how to deal with the new conditions created by the pandemic, ensuring the existence of continuous ventilation of buildings in order to significantly eliminate the concentration of particles indoors as well as the rearrangement of office spaces, so that the layout of the jobs ensures comfort, proper ventilation and adequate safety distances between the employees.

The pandemic, brought a significant recession and insecurity in the global and Greek economy. The decrease in consumption and in the construction sector and the restriction of investments led, as expected, to a significant delay in the execution of projects which combined with the overall decrease in consumer expenditure led to a decrease in sales of the Company and the Group. As a result, management has adjusted its cost structure to limit the negative effects of the decrease in turnover, with the aim to keep the profitability of the Company and the Group relatively stable.

#### D. UNCERTAINTIES AND RISKS FOR THE NEXT FINANCIAL YEAR

AHI Carrier Group has developed and implements a Corporate Risk Management System, which supports the Management in making strategic decisions, with the main goal of preserving the smooth business operation and the future business success of the Group. This is achieved by identifying, evaluating, communicating, and addressing corporate risks (including sustainable development risks), utilizing all the strategic, operational and organizational control and monitoring measures applied, both to reduce the risks and to seize future opportunities.

Management continuously assesses the potential impact of any changes in the macroeconomic and financial environment in Greece and in the countries in which the Group operates in order to ensure that all necessary actions and measures are taken to minimize any impact on the Group's activities. Based on its current assessment, Management has concluded that no additional impairment provisions are required for the Group's financial and non-financial assets as at 31 December 2020.

#### **Brexit**

The Group evaluates the possible effect from Brexit and takes actions as to eliminate them. Taking into account the analysis till today, Brexit has and is estimated to have no effect in the Group's Operations.

#### **Financial Risks**

Risks stated below are significantly affected by the Macro and Micro Environment in Greece.

#### a) Credit Risk

Credit risk is the possibility of a loss resulting from a borrower's failure to meet contractual obligations to the Group and the Company.

The primary credit risk for the Group and the Company, as at the Financial Statements date, is the book value of their Financial Assets.

Default payments from company's customers, can possibly have a negative impact in normal liquidity of the Group and the Company. As a result of the high number in customers and the diversity of customer base of the Group, there is no significant credit risk in relationship with the receivables. Nevertheless, partial credit risk can be found in specific primary customers, due to high volume of transactions with the Group and the Company. For this specific category, the Group and the Company evaluate the credit risk in accordance with the established policies and procedures and a Bad Debt provision reserved.

The Group and the Company apply specific Credit and Insurance policy, for the monitoring and evaluation of customers', not only for the initial credit assessment and the efficient management of receivables before their characterization as "past due" but also when these characterized as expired or unsecured. To monitor credit risk, customers are grouped according to the category they belong to, their credit risk characteristics, the maturity of their receivables and any past collection problems they have shown, considering future factors in relation to customers as well as the economic environment they operate.

The Group and the Company have the following categories of Financial Assets, which are under new financial model for expected credit losses:

| Trade receivables    |
|----------------------|
| Contractual assets   |
| Other current assets |

The Group and the Company apply the simplified IFRS 9 for the measurement of expected losses, in which the loss allowance is measured at an amount equal to lifetime expected losses for the Trade Receivables, the Current Assets and the Other Current Assets.

The following table, presents the Group's and the Company's credit risk exposure for the year ended 31 December 2020 and the year ended 31 December, 2019, for the Trade Receivables and The Contractual Assets in book value before any impairment value:

#### The group

| $\in k$            | Performing 31/12/2020 | Partially performing 31/12/2020 | Non performing 31/12/2020 | Total 31/12/2020 |
|--------------------|-----------------------|---------------------------------|---------------------------|------------------|
| Trade receivables  | 13.694                | 7.976                           | 7.927                     | 29.597           |
| Contractual assets | 264                   | 0                               | 0                         | 264              |
| Total              | 13.958                | 7.976                           | 7.927                     | 29.861           |

#### The company

| <i>€k</i>          | Performing 31/12/2020 | Partially performing 31/12/2020 | Non performing 31/12/2020 | Total<br>31/12/2020 |
|--------------------|-----------------------|---------------------------------|---------------------------|---------------------|
| Trade receivables  | 13.631                | 6.566                           | 7.729                     | 27.927              |
| Contractual assets | 434                   | 0                               | 0                         | 434                 |
| Total              | 14.066                | 6.566                           | 7.729                     | 28.361              |

Other Financial Assets for the Group and the Company assumed to have low credit risk and therefore the balance is considered without credit risk.

Financial assets that present a low risk of default and a strong ability to meet contractual cash flows are considered to be valid, while financial assets for which credit risk has increased significantly since initial recognition but there is no objective evidence of loss are considered partially valid. Non-performing financial assets are considered to be those for which there is objective evidence of credit loss at the reporting date and there is limited expectation of recovery of contractual cash flows.

The separation of customers and contractual assets within the above categories and the determination of whether there has been a significant increase in credit risk at Group level is assessed based on the best estimates of each entity, taking into account specific events and circumstances that apply to them.

#### b) Liquidity Risk

Liquidity risk is the risk that the Group or the Company will not be able to meet their financial obligations when required. Liquidity risk is kept low through the availability of sufficient cash and / or credit limits, which ensure that financial obligations maturing over the next 12 months are met. The cash and cash equivalents of the Group and the Company on December 31, 2020 amounted to Euro 10.517 thousands and Euro 7.280 thousands respectively. There are no short-term loans as at the end of the fiscal year.

To monitor and deal with liquidity risk, the Group companies prepare cash flow forecasts on a regular basis.

#### c) Market Risk

Market risk arises from the possibility that changes in market prices, such as exchange rates, interest rates and share prices, will affect the fluctuation of the value of the financial instruments held by the Group and the Company. Market risk management consists of the effort of the Group and the Company to manage and control their exposure to acceptable limits.

The individual risks that compose the market risk and their management policies by the Group and the Company are described below:

#### a. Interest rate risk

Interest rate risk is the probability that the fair value of a financial instrument's future cash flows will fluctuate due to changes in market interest rates. The Group's exposure to interest rate risk is primarily related to the Group's borrowing.

The Group manages the risk of interest rate fluctuations using primary (non-derivative) financial instruments.

#### b. Currency risk

Foreign exchange risk is the probability that the fair value of a financial instrument 's cash flows will fluctuate due to changes in foreign exchange rates.

The Group operates in Southeastern Europe and is therefore exposed to foreign exchange risk arising from changes in the functional currencies of these countries against other currencies. The main currencies traded with the Group are the Euro, the Bulgarian BGN and the Romanian RON.

The Group monitors changes in foreign exchange rates in order to have, if required, sufficient foreign exchange reserves to minimize exposure to foreign exchange risk in cash flows. Foreign exchange risks that do not affect the Group's cash flows (e.g., risks arising from the conversion of the financial statements of foreign operations into the presentation currency of the Group) are generally not hedged.

#### c. Capital Management

The primary goal of the Group and the Company in terms of capital management is to ensure the maintenance of strong creditworthiness and sound capital ratios to support their business operation and maximize value for the benefit of shareholders.

The Group and the Company manage the capital structure and adjust in order to harmonize with the changes in the financial environment.

An important tool for capital management is the use of the leverage ratio (the ratio of net debt to equity), which is monitored at Group level. Net borrowing includes interest bearing loans as well as long-term and short-term lease liabilities (after the adoption of IFRS 16 as of January 1, 2020), less cash and cash equivalents.

|                                  | The        | group      | The company |            |  |  |

#### d) Other risks

Risk Assessment in the AHI Carrier Group is a structured process in terms of identification, analysis, valuation, and management of business risks, with the aim of taking the optimal decisions, for the proper management. In this context, operational, strategic, regulatory, financial risks, as well as legal / regulatory risks are properly reviewed and monitored.

#### Protection of personal data

The Company collects, stores and uses data in the normal course of its operations and protects them in accordance with the applicable data protection legislation and the Corporate Binding Data Protection Rules for the protection of the Group's personal data, which have been adopted by company's management. Although technical and organizational measures are taken to protect personal data, the measures may fail and some personal data may be lost as a result of human error or technological failure or misused. Possible violation of personal data by the Company or by its associates or suppliers may lead to fines, damage to reputation, loss of business partners and have a negative impact on the company and its financial situation.

The protection of personal data is one of the main priorities of the AHI Carrier Group, not only to meet the legal and regulatory requirements, but also as an integral part of its culture.

Technical and organizational data protection measures include, inter alia, measures to prevent unauthorized persons from accessing data processing systems, measures to ensure the confidentiality of data during storage and transmission (e.g. encryption, pseudonymization), measures that ensure that personal data processed by third parties / contractors are processed only in accordance with the Company's instructions, as well as periodic information and training activities for employees.

#### **Environmental Protection**

The Company recognizes its obligations towards the environment and the need for continuous improvement of its environmental performance. The Company, through its procedures, makes rational use of waste which ultimately does not burden the environment and therefore there are no environmental issues in relation to its operation.

Our goals are:

- . Reduce energy, fuel and paper consumption.
- . Reduce our waste and increase recycling rates.
- . To integrate environmental awareness into our corporate culture.

We monitor our energy footprint and the environmental impact of our activity, while at the same time we seek to improve our operations, the metering process and to further intensify recycling.

Our Company, due to the nature of its operations, energetically burdens the environment, both in terms of resource consumption (electricity, a 'and b' materials, fuels, stationery), but also in terms of production of pollutants and partially recyclable waste.

In relation to the control and prevention of pollution and environmental effects from the consumption of energy resources, the release of air pollutants and the production of waste and waste, our Company fully complies with the applicable legislation and has signed the relevant contracts with Hellenic Recovery and Recycling Corporation and Appliances Recycling S.A.

#### Health and Safety at work

A number of factors related to work activities can endanger the Health and Safety of workers, with more vulnerable the technical staff (including refrigerators and storekeepers). The inability to provide a safe working environment can burden the Company with compensation obligations and other legal costs, while damaging its reputation.

AHI Carrier ensures that the technical staff is always equipped with the necessary personal protective equipment, which are of modern technology, certified and tested for their integrity and expiration and are renewed according to the standards set by law. Also, the Company has undertaken the training and the constant vigilance of the technical staff. Technicians regularly participate in seminars, which are constantly enriched.

In addition to the specialized actions for the demanding work of the technical staff, all the employees of the Group are covered by private health insurance, a system of compensation for health issues and have at their disposal occupational physicians.

#### E. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEMS

The Group has implemented a system of internal controls to safeguard the reliability of financial statements, the efficiency and effectiveness of operations and compliance with laws and regulations.

The Group has established a standard procedure for recording and evaluating the Internal Audit System, the scope of which is determined based on specific criteria of importance (qualitative and quantitative) to ensure that financial information risks are properly identified and assessed and that checkpoints are designed and are implemented on an ongoing basis by Management and staff.

The Internal Audit System, which is an integral part of corporate governance, contributes to the efficiency and effectiveness of the operations of the Company and the Group. Management reviews the controls annually and verifies the adequacy of the system.

The Group has also developed and implements a Corporate Risk Management System, which supports Management in making strategic decisions by identifying, evaluating, communicating and addressing corporate risks, including all strategic, operational and organizational control and monitoring measures. used in risk management.

In the context of the implementation of the Corporate Risk Management System, the strategy for the monitoring, response and management of corporate risks is defined, so that:

- . It is ensured that the existing risks of the Group are systematically identified, analyzed and evaluated and, the information related to the risks and the respective opportunities, are immediately communicated to the competent decision-making bodies.
- . The Group's response to the way it deals with risks that have been identified, analyzed and communicated is recorded and alternatives are evaluated (such as transfer of risks to third parties, e.g. insurance companies).
- . A Tolerance thresholds are established for each level of risk assessment. In case these limits are exceeded, relevant reports and action is made.
- . A common methodology is followed throughout the Group for the identification, evaluation and management of corporate risks.

Risk Assessment in the AHI Carrier Group is a structured process in terms of identification, analysis, valuation and management of business risks, with the aim of taking the optimal decisions, for the proper management. In this context, operational, strategic, regulatory, financial risks, as well as legal / regulatory risks are properly reviewed and monitored. A common Risk Assessment methodology is used, in all business units based on universal assessment and evaluation criteria, so that there is a single way of managing corporate risks throughout the Group.

#### F. IMPORTANT EVENTS AFTER YEAR END

In respect of an audit carried out by the Directorate-General for Competition at the Company's offices on 7 February 2019, following an own-initiative investigation and pursuant to No. Cfi. 683/29.01.2019 control order of the Chairman of the Competition Committee during which various documents were displayed and collected, the Company was requested, by letter of 3 December 2020 from the Competition Committee, to provide additional information, which the Company also submitted to the Commission on 7 January 2021. In addition, on April 1, 2021, the Company received a summons from the Competition Commission to submit a memorandum. At this stage, any assessment of the duration and outcome of this investigation is still considered premature and therefore no provision has been made in the corporate and consolidated financial statements in this respect.

There were no significant events after the reporting period, other than those listed above, that are relevant to the understanding of the separate and consolidated financial statements that are required to be reported in accordance with International Financial Reporting Standards.

#### F. NEXT YEAR OUTLOOK

Next year, 2021, the challenges that businesses will have to face are expected to be significant. The way economies operate at both domestic and international level has undergone structural changes during 2020 and these changes are expected to have an impact on consumer habits as well. Consumers and businesses will be faced with the consequences of the prolonged cessation of economic activity due to the measures taken to tackle the pandemic and it is very likely that pressure will be exerted on household consumption and, by extension, on the financial figures of businesses due to the recession in which both the European and Greek economy have been affected.

While the negative impact of the Covid-19 pandemic is expected to gradually subside in 2021 as the pace of vaccinations accelerates, travel restrictions will be lifted and travel and tourism will return, AHI Carrier Group expects, through the opening up of the economy and investment, a progressive but measured return to better operating conditions and revenue

growth, from the second half of the year onwards, as the EU's recovery and resilience plans, if implemented, are also expected to significantly boost demand in all the countries where the Group operates.

In this context, management remains vigilant and continues to implement strict cost rationalization measures in all sectors to support the Group's profitability and cash flow, while continuing to invest in infrastructures that ensure its comparative advantage and future growth. Management also continuously examines the very demanding conditions and risks to which the Group is exposed for its business activities and has concluded that coronavirus disease is not expected to have a material impact on the results of its operations and its financial performance in the next financial year (01/01/2021 - 31/12/2021) as it is estimated that there will be growth in turnover and improved profitability. The Administration, however, will continue to closely monitor the situation and assess the need for individual actions if the period of disruption is extended again.

The Group will remain committed in 2021 to achieving its annual business objectives, while creating the conditions for its long-term development. Special emphasis will be placed on customer-oriented processes and internal corporate processes, further improving the customer experience and achieving a more unassuming and flexible operating model.

#### **G. LABOR ISSUES**

Regarding labor issues, the promotion of equal opportunities and the protection of diversity are key principles of the Group. The Management of the Group does not discriminate in the recruitment / selection of staff, in salaries, in training, in the assignment of job duties or in any other work activities and urges and advises all its employees to respect the diversity of each employee or its supplier or customer Company and do not accept any behavior that may discriminate in any form.

| Cash and cash equivalents at 31 December                             | 10.517                     | 5.000                      | 7.280                      | 2.912                      |

#### NOTES OF THE FINANCIAL STATEMENTS (FOR THE GROUP AND THE COMPANY)

#### 1. GENERAL INFORMATION OF THE COMPANY AND THE GROUP

"AHI CARRIER SOUTH EASTERN EUROPE AIR-CONDITIONING SINGLE MEMBER SOCIETE ANONYME" (hereafter mentioning as «The Company», «AHI Carrier» or «Parent Company»), created in 1996 as a subsidiary of Carrier Corporation, under the name Carrier HELLAS S.A. and is registered to the General Commercial Registry of Greece with identification number 002134301000. The address of the head office of the Company is 18 Kifissou Avenue, Peristeri, Athens and its official webpage is <a href="www.ahi-carrier.gr">www.ahi-carrier.gr</a>. The shares of the company are ordinary and not available for public through the Athens Stock exchange.

The main operations of the company are the distribution and sales for the Carrier air conditioning products -Toshiba and Totaline- and services, in Greece, Cyprus and the Balkans

The Company and the Group expand their rights of sales of their products on the Balkans through their offices in Bulgaria (2004) and Romania (2008). On 2020, the name of the Company changes to CARRIER SOUTH EASTERN EUROPE AIR-CONDITIONING S.A. declaring the whole area operating in.

In 2011, the Company and the Group in order to improve their services, integrates distribution Carrier products, Toshiba, Totaline and after-sales services in Greece, Cyprus and the Balkans to the existing joint venture AHI Carrier FZC and the Company's and the Group's name change in AHI Carrier Air-Conditioning S.A. SA South Eastern Europe.

In 2013, the Company and the Group also undertook the distribution right of Residential Light Commercial products (RLC) of the Carrier in Central Europe.

The Company and the Group are part of CARRRIER GLOBAL CORPORATION, the largest provider worldwide in HVAC technologies. Committed to innovation and environmental sustainability, Carrier, provides complete solutions in the field of heating, ventilation, air conditioning, refrigeration, building automation, fire safety and protection in order to improve our daily lives.

The accompanying financial statements are consolidated (under full consolidation method) with the financial statements of AHI CARRIER FZC UAE, an UAE company that holds 100% of the share capital of the Company.

AHI Carrier group of companies (hereafter mentioning as «The Group»), holds apart from the Company also all entities that the company controls direct or indirect.

The accompanying financial statements (hereafter mentioning as «financial statements») for the year ended December 31, 2020 were approved for publication by decision of the Board of the Company on 20 May 2021 and are pending the final approval by the Shareholders Meeting of AHI Carrier.

The number of employees for the Group and the Company as at 31.12.2020 and 31.12.2019 is as follows.

| The group |            | The company |            |            |
|-----------|------------|-------------|------------|------------|
|           | 31.12.2020 | 31.12.2019  | 31.12.2020 | 31.12.2019 |
|           |            |             |            |            |
|           | 109        | 123         | 88         | 101        |

Number of employees

Consolidated financial statements include the financial statements of the parent company AHI CARRIER SOUTH EASTERN EUROPE AIR-CONDITIONING SINGLE MEMBER SOCIETE ANONYME and the subsidiaries as indicated at the table below:

#### 2. BASIS OF PREPARATION

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU").

The financial statements have been prepared on a historical cost basis, except for financial assets at fair value through profit or loss, which have been measured at fair values in accordance with IFRS.

The financial statements are presented in thousands of Euro, except when otherwise indicated.

#### 2.1. Significant accounting judgments, estimates and assumptions

The preparation of the financial statements requires management to make estimates and judgments that affect the reported amount of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities included in the financial statements. On an ongoing basis, Management evaluates its estimates and judgements, including those related to legal contingencies, allowance for doubtful accounts, the estimated useful life of non-financial assets, impairment of property, plant and equipment, impairment of intangible assets, impairment of investments, reserve for staff retirement indemnities, recognition of revenues and expenses and income taxes. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the results of which form the bases for making judgments about the carrying value of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The key estimates and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

#### 2.1.1. Provision for income taxes

The provision for income taxes in accordance with IAS 12 "Income taxes", are the amounts expected to be paid to the taxation authorities and includes provision for current income taxes reported and the potential additional tax that may be imposed as a result of audits by the taxation authorities. Group entities are subject to income taxes in various jurisdictions and significant management judgment is required in determining provision for income taxes. Actual income taxes could vary from these estimates due to future changes in income tax law, significant changes in the jurisdictions in which the Group and the Company operate, or unpredicted results from the final determination of each year's liability by tax authorities. These changes could have a significant impact on the Group's and the Company's financial position. Where the actual additional taxes payable are different from the amounts that were initially recorded, these differences will impact the income tax and deferred tax provisions in the period in which such a determination is made. Further details are provided in Note 28.

#### 2.1.2. Deferred tax assets

Deferred income tax assets and liabilities have been provided for the tax effects of temporary differences between the carrying amount and tax base of such assets and liabilities, using enacted tax rates in effect in the years in which the differences are expected to reverse. Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused losses can be utilized. The Group and the Company have considered future taxable income and followed ongoing feasible and prudent tax planning strategy in the assessment of the recoverability of deferred tax assets. The accounting estimate related to deferred tax assets requires management to make assumptions regarding the timing of future events, including the probability of expected future taxable income and available tax planning opportunities. Further details are provided in Note 28.

#### 2.1.3. Provision for expected credit losses of trade receivables and contract assets

The Group and the Company apply the IFRS 9 simplified approach to measure expected credit losses using a lifetime expected loss allowance for all trade receivables and contract assets.

The Group and the Company establish allowance for doubtful accounts sufficient to cover reasonably estimable loss for these accounts. Because of the number of accounts, it is not practical to review the collectability of each account; therefore, at each reporting date all accounts receivable are assessed based on historical trends, statistical information and future expectations regarding suspended customers. The balance of such allowance for doubtful accounts is adjusted by recording a charge to the income statement of the reporting period. Any amount written off with respect to customer account balances is charged against the existing allowance for doubtful accounts. Additional details are provided in Note 10.

#### 2.1.4. Post retirement and other defined benefit plans

Staff Retirement Indemnities obligations are calculated at the discounted present value of the future retirement benefits deemed to have accrued at year-end. Retirement obligations are calculated on the basis of financial and actuarial assumptions that require management to make assumptions regarding discount rates, pay increases, mortality and disability rates, retirement ages and other factors. Changes in these key assumptions can have a significant impact on the obligation and pension costs for the period. Net pension costs for the period consist of the present value of benefits earned in the year, interest costs on the benefits obligation, prior service costs and actuarial gains or losses. The Staff Retirement Indemnities obligations are not funded. Due to the long-term nature of these defined benefit plans, these assumptions are subject to a significant degree of uncertainty. Further details are provided in Note 15.

#### 2.1.5. Estimating the useful life of non-financial assets

The Group and the Company must estimate the useful life of property, plant and equipment and intangible assets recognized at acquisition or as a result of a business combination. These estimates are revisited at least on an annual basis taking into account new developments and market conditions.

#### 2.1.6. Contingent liabilities

The Group and the Company are currently involved in various claims and legal proceedings. Periodically, the Group and the Company review the status of each significant matter and assess potential financial exposure, based on the advice of legal counsel. If the potential loss from any claim or legal proceeding is considered probable and the amount can be reliably estimated, the Group and the Company recognize a provision for the estimated loss. Significant judgment is required in both the determination of probability and the determination as to whether an exposure is reasonably estimable. As additional information becomes available, the Group and the Company reassess the potential liability related to pending claims and litigation and may revise assessments of the probability of an unfavorable outcome and the related estimate of potential loss. Such revisions in the estimates of the potential liabilities could have a material impact on the Group's or the Company's financial position and results of operations.

#### 2.1.7. Leases - Estimating the incremental borrowing rate

The Group and the Company cannot readily determine the interest rate implicit in the lease, therefore, they use the Group's incremental borrowing rate to measure lease liabilities. The incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

#### 2.1.8. Provision for obsolete and slow-moving inventories

The Group and the Company examine the inventory records in order to assess their marketability and net realizable value in case of sale. The provision for obsolete and slow-moving inventories is based on the Management's past experience, sales forecasts and market conditions, taking into account both the value of inventories and the movement and volume of inventories for each category separately. The monitoring of net realizable value is ongoing and the methodology and assumptions surrounding the calculation of the provision for obsolete and slowly moving inventories are regularly reviewed and adjusted accordingly. The amount already provided is adjusted by charging the results of each year.

#### 2.2. New standards, amendments to standards and interpretations

Certain new standards, amendments to standards and interpretations have been issued that are mandatory for periods beginning on or after January 1, 2020.

#### 2.2.1. Standards and Interpretations effective for the current financial year

**IFRS 3** (Amendment) "Definition of a business": The amended definition emphasises that the output of a business is to provide goods and services to customers, whereas the previous definition focused on returns in the form of dividends, lower costs or other economic benefits to investors and others. It further clarifies that, to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. Finally, it introduces an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business.

IAS 1 and IAS 8 (Amendments) "Definition of material": These amendments clarify the definition of material and how it should be applied by including in the definition guidance which until now was featured elsewhere in IFRS. In addition, the explanations accompanying the definition have been improved. Finally, the amendments ensure that the definition of material is consistent across all IFRSs.

**IFRS 9, IAS 39 and IFRS 7** (Amendments) "Interest rate benchmark reform": These amendments modify some specific hedge accounting requirements to provide relief from potential effects of the uncertainty caused by the other interbank offered rates ("IBOR") reform. In addition, the amendments require companies to provide additional information to the users of the financial statements about their hedging relationships which are directly affected by these uncertainties.

#### 2.2.2. Standards and Interpretations effective for subsequent periods

A number of new standards and amendments to standards and interpretations are effective for subsequent periods and have not been applied in preparing these consolidated and separate financial statements. The Group is currently investigating the impact of the new standards and amendments on its financial statements.

IFRS 17 "Insurance contracts" and Amendments to IFRS 17 (effective for annual periods beginning on or after January 1, 2023): IFRS 17 has been issued in May 2017 and, along with the Amendments to IFRS 17 issued in June 2020, supersedes IFRS 4. IFRS 17 establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the Standard and its objective is to ensure that an entity provides relevant information that faithfully represents those contracts. The new standard solves the comparison problems created by IFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner. Insurance obligations will be accounted for using current values instead of historical cost. The standard has not yet been endorsed by the EU.

**IFRS 16 (Amendment) "Covid-19-Related rent concessions" (effective for annual periods beginning on or after June 1, 2020):** The amendment provides lessees (but not lessors) with relief in the form of an optional exemption from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for rent concessions in the same way as they would for changes which are not considered lease modifications.

**IFRS 4 (Amendment) "Extension of the temporary exemption from applying IFRS 9" (effective for annual periods beginning on or after January 1, 2021):** The amendment changes the fixed expiry date for the temporary exemption in IFRS 4 'Insurance Contracts' from applying IFRS 9 'Financial Instruments', so that entities would be required to apply IFRS 9 for annual periods beginning on or after January 1, 2023.

IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (Amendments) 'Interest rate benchmark reform – Phase 2' (effective for annual periods beginning on or after January 1, 2021): These amendments complement those issued in 2019 and focus on the effects on financial statements when a company replaces the old interest rate benchmark with an alternative benchmark rate as a result of the reform. More specifically, the amendments relate to how a company will account for changes in the contractual cash flows of financial instruments, how it will account for the change in its hedging relationships and the information it should disclose.

IAS 16 (Amendment) "Property, plant and equipment – Proceeds before intended use" (effective for annual periods beginning on or after January 1, 2022): The amendment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also requires entities to separately disclose the amounts of proceeds and costs relating to such items produced that are not an output of the entity's ordinary activities. The amendment has not yet been endorsed by the EU.

IAS 37 (Amendment) "Onerous contracts – Cost of fulfilling a contract" (effective for annual periods beginning on or after January 1, 2022): The amendment clarifies that 'costs to fulfil a contract' comprise the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling contracts. The amendment also clarifies that, before a separate provision for an onerous contract is established, an entity recognises any impairment loss that has occurred on assets used in fulfilling the contract, rather than on assets dedicated to that contract. The amendment has not yet been endorsed by the EU.

**IFRS 3** (Amendment) "Reference to the Conceptual Framework" (effective for annual periods beginning on or after **January 1, 2022**): The amendment updated the standard to refer to the 2018 Conceptual Framework for Financial Reporting, in order to determine what constitutes an asset or a liability in a business combination. In addition, an exception was added for some types of liabilities and contingent liabilities acquired in a business combination. Finally, it is clarified that the acquirer should not recognise contingent assets, as defined in IAS 37, at the acquisition date. The amendment has not yet been endorsed by the EU.

IAS 1 (Amendment) "Classification of liabilities as current or non-current" (effective for annual periods beginning on or after January 1, 2023): The amendment clarifies that liabilities are classified as either current or non-current depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the financial position date. The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability. The amendment has not yet been endorsed by the EU.

#### Annual Improvements to IFRSs 2018–2020 (effective for annual periods beginning on or after January 1, 2022):

The amendments set out below describe the key changes to certain IFRSs. The amendments have not yet been endorsed by the EU.

**IFRS 9 "Financial instruments":** The amendment addresses which fees should be included in the 10% test for derecognition of financial liabilities. Costs or fees could be paid to either third parties or the lender. Under the amendment, costs or fees paid to third parties will not be included in the 10% test.

**IFRS 16 "Leases":** The amendment removed the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 of the standard in order to remove any potential confusion about the treatment of lease incentives.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied for the preparation of the financial statements are as follows:

#### 3.1. Basis of Consolidation and Investments

#### **Subsidiaries**

The consolidated financial statements are comprised of the financial statements of the Company and all subsidiaries controlled by the Company directly or indirectly. Control exists when the Group is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss. Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration are recognized in accordance with IFRS 9 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The financial statements of the subsidiaries are prepared as of the same reporting period as the parent company, using consistent accounting policies. All intercompany balances, transactions and any intercompany profit or loss are eliminated in the consolidated financial statements.

#### Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in change of control are accounted for as equity transactions. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interest are also recorded in equity.

#### Disposal of subsidiaries

When the Group disposes of or ceases to have control or any retained interest in the subsidiary it is remeasured to its fair value at the date of disposal or when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that subsidiary are reclassified to profit or loss.

#### **Associates**

Associates are those entities in which the Group has significant influence upon, but not control over their financial and operating strategy, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates in which the Group has significant influence are accounted for using the equity method of accounting. Under this method the investment is initially recognized at cost and is adjusted to recognize the investor's share of the profit or loss after the date of acquisition.

The Group's share of post-acquisition profit or loss is recognized in the income statement and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income.

Gains or losses from transactions with associates are eliminated to the extent of the interest in the associate. Dividends received from associates are eliminated against the carrying value of the investment. The associate's value is adjusted for any accumulated impairment loss. When the Group's share of losses exceeds the carrying amount of the investment, the carrying value of the investment is reduced to nil and recognition of further losses is discontinued, except to the extent the Group has created obligations or has made payments on behalf of the associate.

The Group has no any participating interests in associates as of 31 December 2020.

In the separate financial statements, investments in subsidiaries are accounted for at cost adjusted for any impairment where necessary.

#### 3.2. Foreign Currency Translation

The Company's functional and presentation currency is the Euro. Transactions involving other currencies are translated into Euro at the exchange rates, ruling on the date of the transactions. At the reporting date, monetary assets and liabilities, which are denominated in foreign currencies, are retranslated at the exchange rates at that date. Gains or losses resulting from foreign currency translation are recognized in the income statement.

Non-monetary items denominated in foreign currencies that are measured at historical cost are translated at the exchange rate at the date of the initial transaction. Non-monetary items denominated in foreign currencies that are measured at fair value are retranslated at the exchange rates at the date that the fair value was determined. The foreign currency differences arising from the change in the fair value of these items are recognized in the income statement or directly in other comprehensive income depending on the underlying item.

Items included in the financial statements of each of the Group entities are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). Assets and liabilities of entities that have a functional currency different from the presentation currency, including any goodwill and the fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition, are translated into Euro using exchange rates ruling at the reporting date. Revenues and expenses are translated at rates prevailing at the date of the transaction. All resulting foreign exchange differences are recognized in other comprehensive income and are reclassified in the income statement on the disposal of the foreign operation.

#### 3.3. Intangible assets

Intangible assets acquired separately are recognized at historical cost, while those acquired from a business combination are recognized at fair value on the date of acquisition. Subsequently, they are carried at cost less accumulated amortization and accumulated impairment losses. All intangible assets have a finite useful life and are amortized on a straight-line basis over their useful life. The useful life of intangible assets is reviewed on an annual basis, and adjustments, where applicable, are made prospectively.

The intangible assets of the Company and the Group mainly relate to software programs, the useful life of which has been estimated to be between 5 and 10 years.

#### 3.4. Property, Plant and Equipment

Items of property, plant and equipment are measured at historical cost, plus interest costs incurred during periods of construction, less accumulated depreciation and any impairment in value.

The present value of the expected retirement costs, for a relevant asset, is included in the cost of the respective asset if the recognition criteria for a provision are met and are depreciated accordingly.

Repairs and maintenance costs are expensed as incurred. The cost and related accumulated depreciation of assets retired or sold are removed from the corresponding accounts at the time of sale or retirement, and any gain or loss is recognized in the income statement.

When significant parts of the property, plant and equipment are required to be replaced at intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciation.

Depreciation is recognized on a straight-line basis over the estimated useful lives of property, plant and equipment, which are periodically reviewed. The estimated useful lives and the respective rates are as follows:

| <u>Item Description</u>                          | <b>Estimated Useful Life</b> | <b>Depreciation Rates</b> |
|--|------------------------------|---------------------------|
| Building installations in third party properties | Duration of the lease        | 8% - 12%                  |
| Technical equipment and machinery                | 5 - 10 years                 | 10% - 20%                 |
| Transportation means                             | 6 - 9 years                  | 11% - 17%                 |
| PC Hardware                                      | 5 - 10 years                 | 10% - 20%                 |
| Fixtures and furniture                           | 5 - 10 years                 | 10% - 20%                 |

#### 3.5. Impairment of Non - Financial Assets

The carrying values of the Group's or the Company's non-financial assets are tested for impairment, when there are indications that their carrying amount is not recoverable. In such cases, the recoverable amount is estimated and if the carrying amount of the asset exceeds its estimated recoverable amount, an impairment loss is recognized in the income statement. The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. In measuring value in use, estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to that asset. If an asset does not generate cash flows individually, the recoverable amount is determined for the cash generating unit to which the asset belongs. At each reporting date the Group and the Company assess whether there is an indication that an impairment loss recognized in prior periods may no longer exist. If any such indication exists, the Group and the Company estimate the recoverable amount of that asset and the impairment loss is reversed, increasing the carrying amount of the asset to its recoverable amount, to the extent that the recoverable amount does not exceed the carrying value of the asset that would have been determined (net of amortization or depreciation), if no impairment loss had been recognized for the asset in prior years.

#### 3.6. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### Initial recognition and subsequent measurement of financial assets

The financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the business model within which the financial asset is held.

With the exception of trade receivables, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables are initially measured at the transaction price determined under IFRS 15 "Revenue from contracts with customers".

In order for a financial asset to be classified and measured at amortized cost or fair value through other comprehensive income, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI criterion and is performed at an instrument level.

For the purpose of subsequent measurement, financial assets are classified in three categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through other comprehensive income
- Financial assets at fair value through profit or loss.

The Group and the Company hold no assets at fair value through other comprehensive income as of 31 December 2020.

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired. This category includes all financial assets of the Group and the Company.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the income statement.

The fair values of quoted investments are based on quoted market bid prices. For investments where there is no quoted market price, fair value is determined using valuation techniques, unless the range of reasonable fair value estimates is significant and the probabilities of the various estimates cannot be reasonably assessed, where the entity is precluded from measuring these investments at fair value. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place are recognized on the settlement date (i.e. the date that the asset is transferred or delivered to the Group or the Company).

The Group and the Company have no any financial assets measured at fair value through profit or loss as of 31 December 2020.

#### Impairment of financial assets

The Group and the Company assess at each reporting date, whether a financial asset or group of financial assets is impaired and recognize, if necessary, an allowance for Expected Credit Losses for all debt instruments not held at fair value through profit or loss. Expected Credit Losses are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

Expected Credit Losses are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, Expected Credit Losses are provided for credit losses that result from default events that are possible within the next 12 months. For those credit exposures for which there has been a significant increase in

credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default.

For trade receivables and contractual assets, the Group and the Company apply a simplified approach in calculating Expected Credit Losses. Therefore, the Group and the Company do not track changes in credit risk, but instead recognize a loss allowance based on lifetime Expected Credit Losses at each reporting date.

To measure the expected credit loss in relation to trade receivables and contract assets, the Group has established a provision matrix relying on aging analysis, which is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For all other Group's financial assets at amortized cost, the general approach is applied. These assets are considered to have low credit risk and any loss allowance is therefore limited to 12 months' expected losses.

#### **Derecognition of financial assets**

A financial asset (or, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired.
- the Group or the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Group or the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the assets, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group or the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group or the Company continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group or the Company also recognize an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group or the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Initial recognition and subsequent measurement of financial liabilities

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. For the purpose of subsequent measurement, financial liabilities are classified as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss.

#### **Derecognition of financial liabilities**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability. The difference in the respective carrying amounts is recognized in the income statement.

#### Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position only when the Group or the Company has a legally enforceable right to set off the recognized amounts and intends either to settle such asset and liability on a net basis or to realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

### 3.7. Derivative Financial Instruments and Hedging Instruments

Derivative financial instruments include interest rate swaps, currency swaps and other derivative instruments.

#### **Derivatives and hedging activities**

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value based on quoted market prices, if available, or based on valuation techniques such as discounted cash flows. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

For hedge accounting purposes, hedges are classified either as fair value hedges, where the exposure to changes in the fair value of a recognized asset or liability is being hedged, or as a cash flow hedge, where the exposure to variability in cash flows associated with a specifically identified risk which may be directly related to the recognized asset or liability is being hedged. When hedge accounting is applied, at the inception of the hedge there is formal documentation which includes identification of the hedging instrument, the hedged item, the hedging relationship, the nature of the risk being hedged and the risk strategy.

In a fair value hedge, the change in the fair value of a hedging instrument is recognized in the income statement. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognized in the income statement.

In a cash flow hedge, the effective portion of the gain or loss on the hedging instrument is recognized in other comprehensive income in a cash flow hedge reserve, while any ineffective portion is recognized immediately in the income statement. The cash flow hedge reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

The Group and the Company do not hold any derivatives as of 31 December 2020.

#### 3.8. Inventories

Inventories are measured at the lower of cost and net realizable value. The cost is based on the weighted average cost method, where the average is calculated at the end of the period. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. When there is any subsequent increase of the net realizable value of inventories that have been previously written-down, the amount of the write-down is reversed.

#### 3.9. Trade Receivables and Allowance for Doubtful Accounts

A receivable represents the Group's or the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Trade receivables are initially recognized at their fair value which is equal to the transaction amount. Subsequently they are measured at amortized cost, less an allowance for expected credit losses based on lifetime expected credit losses at each reporting period. At each reporting date, trade receivables are either assessed individually for debtors such as other providers or collectively based on historical trends, statistical information and forward looking factors and a provision for the probable and reasonably estimated loss for these accounts is recorded. The balance of such allowance for doubtful accounts is adjusted by recording a charge to the income statement at each reporting period. Any customer account balances written-off are charged against the existing allowance for doubtful accounts.

#### 3.10. Cash and Cash Equivalents - Restricted Cash

For purposes of the cash flow statement, time deposits are considered to be cash and cash equivalents. Restricted cash is cash not available for immediate use. Such cash cannot be used by a company until a certain point or event in the future. In cases when restricted cash is expected to be used within one year after the reporting date, it is classified as a current asset. However, if restricted cash is not expected to be used within one year after the reporting date, it is classified as a non-current asset. Restricted cash is not included in line "Cash and cash equivalents".

The Group and the Company do not have any time deposits or restricted cash as of 31 December 2020.

#### 3.11. Current and Deferred Income Tax

Income tax for the period comprises current and deferred tax. Tax is recognized in the income statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Current income tax is measured on the taxable income for the year using enacted or substantively enacted tax rates at the reporting date in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

|           | l income tax is provided on all temporary differences arising between the carrying amounts of assets and liabilities cial reporting purposes and their tax bases.  |
|-----------|--|
| Deferred  | I tax liabilities are recognized for all taxable temporary differences except:   |
|           | where the deferred tax liability arises from the initial recognition of goodwill of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and   |
|           | in respect of temporary differences associated with investment in subsidiaries and associates, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.   |
| tax losse | I tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused s, to the extent that is probable that taxable profit will be available against which the deductible temporary differences carry forward of unused tax credits and unused tax losses can be utilized except:            |
|           | where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of goodwill of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and                        |
|           | in respect of temporary differences associated with investment in subsidiaries and associates, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized. |
|           |  |

Deferred tax is measured at the tax rates that are expected to apply in the year when the asset is realized or liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

#### 3.12. Share Capital

Ordinary shares are classified as equity. Share capital issuance costs, net of related tax, are reflected as a deduction from Share Premium.

#### **3.13.** Leases

The Group and the Company assess at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Accounting by lessee

The Group and the Company apply a single recognition and measurement approach for all leases (including short-term leases and leases of low-value assets). The Group and the Company recognize lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### a) Right-of-use assets

The Group and the Company recognize right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful life of the assets.

If ownership of the leased asset is transferred to the Group or the Company at the end of the lease term or its cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The Group and the Company have lease contracts for buildings (used as offices and storage spaces), forklift trucks, vehicles and other equipment used in their operations. The lease contracts may contain both lease and non-lease components. The Group and the Company have elected not to separate non-lease components from lease components, and instead to account for each lease component and any associated non-lease components as a single combined lease component.

The right-of-use assets are also subject to impairment.

#### b) Lease liabilities

At the commencement date of the lease, the Group and the Company recognize lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group or the Company and payments of penalties for terminating the lease, if the lease term reflects the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group and the Company use the Group's incremental borrowing rate because the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced through the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a reassessment or modification of the lease contract.

#### Accounting by lessor

Leases in which the lessor does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When assets are leased out under an operating lease, the asset is included in the statement of financial position based on the nature of the asset. Lease income on operating leases is recognized over the term of the lease on a straight-line basis.

A lease that transfers substantially all of the risks and rewards incidental to ownership of the leased item is classified as finance lease.

The lessor in a finance lease derecognizes the leased asset and recognizes a receivable in the amount of the net investment in the lease. The lease receivable is discounted using the effective interest method and the carrying amount is adjusted accordingly. Lease receivable is increased to reflect the accretion of interest and reduced through the lease proceeds made.

The Group and the Company do not act as lessors as of 31 December 2020.

Details for the Group's and the Company's leases are included in Note 16.

#### 3.14. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period in which they incur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### 3.15. Borrowings (Loans)

All loans and borrowings are initially recognized at fair value, net of direct costs associated with the borrowing. After initial recognition, borrowings are measured at amortized cost. Gains and losses are recognized in the income statement over the period of the borrowings using the effective interest method.

#### 3.16. Provisions

Provisions are recognized when the Group or the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are measured by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase of the provision due to the passage of time is recognized as a borrowing cost. Provisions are reviewed at each reporting date, and if it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, they are reversed. Provisions are used only for expenditures for which they were originally recognized. No provisions are recognized for future operating losses. Contingent assets and contingent liabilities are not recognized.

A provision for warranties is recognized when the underlying products or services are sold, based on historical warranty data and a weighting of possible outcomes against their associated probabilities.

# 3.17. Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

# 3.18. Employee Benefits

#### **Defined Contribution Plans**

A defined contribution plan is a pension plan under which the Group and the Company pay fixed contributions into a separate entity. The Group and the Company has no legal or constructive obligations to pay any further amounts if the fund does not hold sufficient assets to pay benefits relating to service in the current and prior periods. Obligations for contributions to defined contribution plans are recognized as an expense as incurred.

#### **Termination benefits**

Termination benefits are payable when employment is terminated by the Group or the Company before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group and the Company recognize termination benefits at the earlier of the following dates: (a) when the Group or the Company can no longer withdraw the offer of those benefits; and (b) when the entity recognizes costs for a restructuring that is within the scope of IAS 37 and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

# 3.19. Expenses Recognition

Expenses are recognized in profit or loss on accrued basis and in the period in which they are incurred. All marketing costs are expensed as incurred.

# 3.20. Revenue from Contracts with Customers

Revenue from contracts with customers is recognized when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Group or the Company expects to be entitled in exchange for those goods or services.

The Group and the Company are in the business of the distribution and after-sales services of air conditioning and ventilation products. Revenues primarily consist of sales of air conditioning, refrigeration and heating products, compressors, sales of spare parts and components for these products, as well as of fee income from technical support and extended warranty services.

The Group and the Company recognize revenue from extended warranty services over time because the customer simultaneously receives and consumes the benefits provided by the Group and the Company.

Revenues from the sale of air conditioning products, spare parts and components for these products as well as fee income from technical support are recognized at a point in time, upon delivery of the equipment or technical support, as it generally constitutes separate performance obligation.

The services and the air conditioning equipment are sold on their own in separately identified contracts with customers or together as a bundled package of goods and services. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the stand-alone selling prices. Each performance obligation is accounted for separately.

When the Group or the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, the Group presents the contract as a contract asset, excluding any amounts presented as a receivable. A contract asset is the Group's and the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer.

Contract assets will be typically recovered between 12 to 24-month service contracts period which defines the normal operating cycle and is also frequently used at the Group and the Company. As a result, any contract asset recognized under a multiple-element arrangement will be also recovered in the entity's normal operating cycle and is presented as current in the statement of financial position.

When customer pays consideration, or the Group and the Company have a right to an amount of consideration that is unconditional, before the Group or the Company transfers a good or service to the customer, the Group and the Company present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier). For the Group and the Company, contract liabilities are primarily the result of product sales or services charged to the customer in advance, or prepaid by him, as well as contract liabilities relating to extended warranty services. Some of the Group's and the Company's contract liabilities will be settled within a "regular" 12 to 24-month service contract and are also tied to a defined operating cycle. However, other might be settled over a period exceeding the "regular" period. Therefore, the Group has concluded that the more prudent approach is to present:

|   | the amount of Contract liabilities expected to be settled within 12 months as current, and         |
|---|--|
| П | the amount of Contract liabilities expected to be settled after more than 12 months as non-current |

#### 3.21. Dividends distribution

Dividends payables to the shareholders are recognized as a liability at the moment they are approved by the Shareholders meeting.

# 4. TANGIBLE FIXED ASSETS

The own tangible fixed assets for the Group and the Company are analyzed as follows:

| The group |
|-----------|
|-----------|

|                                       | Land and<br>buildings | Machinery | Trans portation means | Plant and equipment | Total   |
|---------------------------------------|-----------------------|-----------|-----------------------|---------------------|---------|
| €k                                    | -                     |           |                       |                     |         |

| $\in k$           | 31/12/2019 | 31/12/2018 | 31/12/2019  | 31/12/2018 |
| Statutory reserve | 777        | 680        | 777         | 680        |
| Other reserves    | 0          | 1          | 0           | 0          |
| Total             | 777        | 681        | 777         | 680        |

#### 15. OBLIGATIONS OF BENEFITS TO THE STAFF

# **Defined Contribution Plans**

Contributions to social security, for the year ended 31 December, 2020, amounted 906k Euro for the Group and 856k Euro for the Company. (2019: 938k Euro and 897k Euro respectively).

#### **Defined Benefit Plans**

In accordance to Greek Labour Legislation, all employees are subject to compensation, in the case of retirement or dismissal. The amount for the future payment of benefits depends on the individual length of service, the individual salary and the way of leaving the Company (retirement or dismissal). Employees that leave the company voluntarily (except from some special cases) or dismissed due to a law prosecution by the employer have no right of compensation.

The amount of compensation in case of retirement equals 40% of the amount due to dismissal.

The accrued benefits provision of every period, in accordance with I.F.R.S. 19 « Defined Benefit Plans» is stated to the financial statements based on an independent actuarial report.

The cost of provision for compensation due to retirement is recognized at the consolidated Income Statement and is as follows:

|                                      | The group  |            | The company |            |
|--------------------------------------|------------|------------|-------------|------------|
| $\in k$                              | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Service cost component               | 54         | 50         | 52          | 47         |
| Cost of special termination benefits | 191        | 101        | 195         | 102        |
| Interest cost component              | 8          | 15         | 8           | 13         |
| Total                                | 253        | 165        | 255         | 163        |

The movement in the current value of compensation due to retirement are as follows:

|  | The group  |            | The company |            |
|--|------------|------------|-------------|------------|
| $\in k$                                      | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Total obligation recognized as at 01/01      | 705        | 676        | 674         | 647        |
| Interest cost component                      | 8          | 15         | 8           | 13         |
| Service cost component                       | 54         | 50         | 52          | 47         |
| Cost of special termination benefits         | 191        | 101        | 195         | 102        |
| Benefits paid during the fiscal year         | (228)      | (136)      | (228)       | (136)      |
| Αναλογιστικό κέρδος / (ζημία) στην υποχρέωση | 239        | 0          | 183         | 0          |
| Total  | 969        | 705        | 884         | 674        |

The basic assumptions applied for the actuarial report, for the Group and the Company, are as follows:

|  | The group  |            | The company |            |
|--|------------|------------|-------------|------------|
|  | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Average yearly long terminflation rate | 1,70%      | 1,70%      | 1,70%       | 1,70%      |
| Rate of compensation increase          | 2,20%      | 2,20%      | 2,20%       | 2,20%      |
| Discount Rate                          | 0,40%      | 0,90%      | 0,40%       | 0,90%      |

# Risks

The above-mentioned plan is not financed and therefore no assets are recognized. As a result, risks on assets or similar don't exist. The risks of the specific plan are related to the assumptions of the actuarial report such as changes in bond rates or hypothesis regarding the inflation or the rate of increasing salaries, that could affect future cash flow of the plan.

# 16. LEASE LIABILITIES

Lease liabilities are as follow:

|   | The group  |            | The company |            |
|---|------------|------------|-------------|------------|
| $\in k$                                   | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Lease liabilities under I.F.R.S. 16       | 1.096      | 1.086      | 687         | 958        |
| Minus: Amount due during next fiscal year | ( 549)     | (493)      | (428)       | (429)      |
| Minus: Amount due during next fiscal year | 547        | 593        | 259         | 529        |

The movement of lease liabilities is as follows:

|                     | The group  |            | The company |            |
|---------------------|------------|------------|-------------|------------|
| $\in k$             | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Balance as at 01/01 | 1.086      | 1.303      | 958         | 1.129      |
| Additions           | 554        | 267        | 172         | 230        |
| Payments            | ( 544)     | (484)      | (443)       | (401)      |
| Balance as at 31/12 | 1.096      | 1.086      | 687         | 958        |

Present value analysis of lease liabilities is as follows:

| €k                | 31.12.2020 | 31.12.2019 | 31.12.2020 | 31.12.2019 |
|-------------------|------------|------------|------------|------------|
| up to 1 year      | 549        | 493        | 428        | 429        |
| From 2 to 5 years | 547        | 593        | 259        | 529        |
| 5+ years          | 0          | 0          | 0          | 0          |
| Total             | 1.096      | 1.086      | 687        | 958        |

Minimum leases payables are as follows:

|   | The        | group      | The co     | ompany     |
|---|------------|------------|------------|------------|
| $\in k$                                 | 31.12.2020 | 31.12.2019 | 31.12.2020 | 31.12.2019 |
| up to 1 year                            | 570        | 530        | 449        | 462        |
| From 2 to 5 years                       | 570        | 615        | 272        | 549        |
| 5+ years                                | 0          | 0          | 0          | 0          |
| Total                                   | 1.140      | 1.145      | 722        | 1.011      |
| Minus:                                  |            |            |            |            |
| Future financial expenses               | (44)       | ( 59)      | (35)       | ( 53)      |
| Present value of minimum lease payments | 1.096      | 1.086      | 687        | 958        |

# 17. PROVISIONS

Provisions are as follows:

|                    | The group  |            | The company |            |
|--------------------|------------|------------|-------------|------------|
| $\in k$            | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Warranty provision | 401        | 411        | 401         | 411        |

The movement of the provision is as follows:

|                                   | The group  |            | The company |            |
|-----------------------------------|------------|------------|-------------|------------|
| $\in k$                           | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Balance as at 01/01               | 411        | 450        | 411         | 450        |
| Provision charged in the period   | 0          | 0          | 0           | 0          |
| Reversal of prior years provision | (11)       | (38)       | (11)        | (38)       |
| Balance as at 31/12               | 401        | 411        | 401         | 411        |

Warranty provision is recognized when products or services that are subjects to warranty are sold. The calculation amount is based on historical data and weighting of possible outcomes in relation to their associated probabilities.

# 18. SHORT TERM BANK LOANS

Balance of short-term loans as at December 31,2020 is zero (December 31,2019:  $\in$ k 1.500). Loans, if existed, regard the credit lines of the Parent Company.

The movement of these borrowings is as follows:

|                     | The group  |            | The company |            |
|---------------------|------------|------------|-------------|------------|
| $\epsilon k$        | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Balance as at 01/01 | 1.500      | 1.400      | 1.500       | 1.400      |
| Amount granted      | 3.000      | 669        | 3.000       | 669        |
| Amount paid         | (4.500)    | (569)      | (4.500)     | (569)      |
| Balance as at 31/12 | 0          | 1.500      | 0           | 1.500      |

# 19. TRADE PAYABLES

Trade payables are as follows:

|                              | The group  |            | The company |            |
|------------------------------|------------|------------|-------------|------------|
| $\in k$                      | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Domestic vendors             | 1.325      | 1.518      | 1.325       | 1.518      |
| Foreign vendors              | 464        | 296        | 242         | 217        |
| Payables to related parties  | 5.151      | 6.197      | 4.525       | 5.178      |
| Estimated purchases/expenses | 73         | 50         | 76          | 45         |
| Total                        | 7.013      | 8.061      | 6.167       | 6.958      |

# 20. OTHER CURRENT LIABILITIES

Other current liabilities are as follows:

|                                  | The group  |            | The company |            |

| Total                            | 2.137      | 2.103      | 1.874       | 1.669      |

#### 21. CONTRACTUAL ASSETS AND LIABILITIES

The following table gather the information regarding contractual assets and liabilities based on contracts with clients:

|                                      | The        | group      | The co     | ompany     |
|--------------------------------------|------------|------------|------------|------------|
| $\in k$                              | 31.12.2020 | 31.12.2019 | 31.12.2020 | 31.12.2019 |
| Contractual assets (long term)       | 0          | 0          | 0          | 0          |
| Contractual assets (short term)      | 264        | 44         | 434        | 44         |
| Total contractual assets             | 264        | 44         | 434        | 44         |
|                                      |            |            |            |            |
| Contractual liabilities (long term)  | 154        | 141        | 154        | 141        |
| Contractual liabilities (short term) | 1.084      | 776        | 843        | 145        |
| Total contractual liabilities        | 1.237      | 918        | 997        | 286        |

When the Group or the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, the Group presents the contract as a contract asset, excluding any amounts presented as a receivable. A contract asset is the Group's and the Company's right to consideration in exchange for goods or services that the entity has transferred to a customer

On the contrary, when customer pays consideration, or the Group and the Company have a right to an amount of consideration that is unconditional, before the Group or the Company transfers a good or service to the customer, the Group and the Company present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier). For the Group and the Company, contract liabilities are primarily the result of product sales or services charged to the customer in advance, or prepaid by him, as well as contract liabilities relating to extended warranty services.

At 31th of December, 2020, the company has recognized accrued management fees attributable to subsidiaries of the Group which total €k 170.

#### 22. NET SALES

Net Sales Turnover for the Group and the Company are as follows:

|   | The group                  |                            | The company                |                            |

# 28. INCOME AND DEFERRED TAX

In accordance with Greek tax legislation, income tax rate applied on Greek legal entities for the fiscal year ended at 31th of December 2020 is 24% (31th of December 2019: 24%)

Income tax rate applied on legal entities established in Bulgaria and Romania is 10% and 16% respectively (2019: 10% and 16%).

From January 2014 onwards, dividends paid within the same group of companies established in E.U. are exempted from tax under the condition that the parent entity holds a percentage of at least 10% of the share capital of the subsidiary that pays the dividend for at least the last two years.

In accordance with Law 4646/2020, no tax is applied on sales of shares from July 1,2020 onwards, under the condition that the seller holds a percentage of at least 10% of the share capital for at least the last two years.

Greek tax legislation is under interpretation of Greek Tax Authorities and Greek courts. Income tax returns must be submitted annually. Income tax results declared (gains or losses) are considered not temporary till a tax audit from Greek Tax Authorities takes place. In accordance with Greek tax legislation (article 36, law 4174/2013), Greek ax Authorities can charge extra taxes and fines based on a tax audit within the predicted period which is five calendar years after the end of the calendar year when the submission of income tax return is mandatory to take place. Based on the above, fiscal years till 2014 are considered final and closed.

From fiscal year 2011 onwards, tax returns are subject to the procedure of receiving "Annual Tax Certificate" as described below.

Income tax losses recognized by Greek Tax Authorities can be transferred and deducted from future income tax gains for five years.

In accordance with Greek Tax Law 4799/2021:

- a. Income tax rate applied on Greek legal entities for fiscal years 2021 onwards, is reduced at 22% and
- b. A prepayment of income tax is obligatory calculated on 80% of the current income tax. This prepayment is offset with the income tax of the next year after a tax audit from Greek tax authorities. Exceptionally, for fiscal year 2020, the prepayment income tax is calculated on 70% of the current income tax applicable by 18/05/2021.

Based on section "a" above, and taking into account paragraph 48 of I.F.R.S. 12, Management recognized deferred tax as at 31th of December 2020 using a tax rate of 22%.

#### **Annual Tax Certificate**

For fiscal years 2011 onwards, the Greek Societe Anonyme and Limited Liability Companies whose annual financial statements are obligatory audited, are obtaining an "Annual Tax Certificate" as provided to paragraph 5 of article 82 of Law 2238/1994 and to article 82A of Law 4174/2013. This "Annual Tax Certificate" is issued by the same statutory auditor or audit firm that conducts the annual financial statements audit. Upon completion of this special tax compliance audit, the statutory auditor or audit firm issues the Company "Tax Compliance Report", and then the statutory auditor or audit firm submit it electronically to the Ministry of Finance.

Regarding the Parent Company, which is established in Greece and subject to the "Annual Tax Certificate" procedure, Tax Compliance Report has been granted for fiscal years 2011 – 2019. These "Annual Tax Certificates" have been granted with no significant adjustments regarding income tax expense and relevant provision, as stated in the financial statements. It is noted that based on Greek tax legislation (circular of ministry of finance 1006/2016), entities that have received an "Annual Tax Certificate" are not excluded from a tax audit performed by Greek Tax Authorities. Therefore, Greek Tax Authorities preserve their right of a tax audit within the dates above-mentioned.

Special tax compliance audit for fiscal year 2020 is still in progress by PKF EUROAIDITING S.A. Upon completion of this audit, the Management expects no material additional tax liabilities.

The Group sets up a provision for additional taxes when it's considered necessary for each entity of the Group.

Income tax expense for the years ended December 31, 2020 and December 31, 2019 is as follows:

|                                  | The group    |              | The company  |              |

Members of the Board and Senior Management as well as a close member to them, are defined as related parties under IAS 24 "Related parties Disclosures". The remuneration includes salaries and other short-term benefits as well as the compensation due to retirement (as defined under IAS 19 "Employee Benefits".

The remuneration of Board members and Senior Management for the years ended 31 December, 2020 and 31 December, 2019 amounted to Euro 840k and Euro 732k respectively.

#### 30. LEGAL CASES - COMMITMENTS

#### Pending legal cases

The Company and the Group is subject to various disputes and legal cases. The Company and the Group review the status of each significant case on a periodic basis and evaluate the potential risk, partially based on the opinion of legal consultants. The determination of probability and risk upon reliable estimation requires management judgement. The Company's and Group's management believes that any liability arises for the Company and the Group as a result of these legal proceedings will not have a material adverse effect on the consolidation income statement, cash flow, or the financial condition of the Company and the Group as a whole.

If the potential loss from any disputes and legal cases considered probable and the amount can be reliably estimated, the Company and the Group recognize a liability for the estimated loss.

#### Other commitments

The Parent Company, in the frames of core business, has been issued letters of guarantee, in the amount of Euro 360k as at 31 December, 2020. (31 December, 2019 Euro 331k).

#### 31. FINANCIAL ASSETS AND FINANCIAL RISK MANAGEMENT

#### Fair Value

The Group use the below hierarchy for the definition of Fair Value:

Level 1 inputs: comprise quoted prices in active markets for identical assets and liabilities at the measurement date.

Level 2 input: Directly or indirectly observable inputs

Level 3 inputs: Are unobservable inputs for items based upon best information available

The Fair Value of Financial Assets and Financial Liabilities is closed to their book value.

#### Financial Risk Management

The Management continuous evaluates the possible impact of any change in Macro-economic and Financial environment in Greece and Balkans, in order to take all necessary actions as to eliminate any effect in the Group's operations in Greece. Based on its current evaluation, there is no need for extra provisions for impairment losses for Financial and non-Financial assets of the Group as at 31 December, 2020.

#### **Brexit**

The Group evaluates the possible effect from Brexit and takes actions as to eliminate them. Taking into account the analysis till today, Brexit has and is estimated to have no effect in the Group's Operations.

#### **Financial Risks**

The below risks are significantly affected by the Macro and Micro Environment in Greece.

#### a) Credit Risk

Credit risk is the possibility of a loss resulting from a borrower's failure to repay a loan or meet contractual obligations to the Group and the Company.

The primary credit risk for the Group and the Company, as at the Financial Statements date, is the book value of their Financial Assets.

The default payments from company's customers, can possibly have a negative impact in normal liquidity of the Group and the Company. As a result of the high number of customers and the diversity of customer base of the Group, there is no significant credit risk in relationship with the receivables. Nevertheless, partial credit risk can be found in specific primar customers, due to high volume of transactions with the Group and the Company. For this specific category, the Group and the Company evaluate the credit risk in accordance with the established policies and procedures and a Bad Debt provision provided.

The Group and the Company apply specific Credit and Insurance policy, for the monitoring of customers', based on initial credit assessment and the efficient management of receivables before they characterized as "past due" as well as when they characterized as expired or unsecured. For the Credit Risk monitoring, the company groups the customers based on the category, the main credit risk characteristics, the aging of receivables and possible former receivable collection problems, taking into account future events and general economic environment in which they operate.

The Cash and Cash Equivalent of the Group and the Company are mainly invested for a short period, in bank institutions with a high credit rating.

# **Impairment of Financial Assets**

| The Group and the Company l | have the following | categories of | Financial Assets | s, which | are under nev | / Financial | model | for |
|-----------------------------|--------------------|---------------|------------------|----------|---------------|-------------|-------|-----|
| expected credit losses:     |                    |               |                  |          |               |             |       |     |

| - T-1 | <br>                 |  |  | _ |  | <br> |  |
|-------|----------------------|--|--|---|--|------|--|
|       | Other current assets |  |  |   |  |      |  |
|       | Contractual assets   |  |  |   |  |      |  |
|       | Trade receivables    |  |  |   |  |      |  |

The Group and the Company apply the simplified IFRS 9 for the measurement of expected losses, in which the loss allowance is measured at an amount equal to lifetime expected losses for the Trade Receivables, the Contractual Assets and the Other Current Assets.

The following table, presents the Group's and the Company's credit risk exposure for the year ended 31 December 2020 and the year ended 31 December, 2019, for the Trade Receivables, The Current Assets and the Other Currents Assets:

Other Financial Assets for the Group and the Company assumed to have low credit risk and therefore the balance is considered without credit risk.

The Financial Assets which performed with low risk of default and high ability for fulfillment of cash flow are defined as "Performing" while the Financial Assets for which the credit risk has significantly increased from the initial recognition without indication of credit risk are defined as "Non Performing". Non performing Financial Assets are those which significant indications of credit losses exist, as at the reference date, and limited expectations for Cash Flow recovery exist.

The main customer and assets allocation in the above categories and the identification for the increased credit risk in Group's level, is evaluated based on optimal assumptions for each entity, taking into account specific events and occasions.

#### b) Liquidity Risk

The liquidity risk refers to the lack of marketability of a security or asset, which cannot be sold or bought quickly enough to prevent or minimize a loss. The liquidity risk for the Group and the Company, is in low levels, due to the sufficiency of cash and cash equivalents or/and the company's credit limits, which ensure the financial liabilities performance in the next 12 months. The Cash and Cash Equivalent for the Group and the Company at 31 December 2020 was Euro 10.517k and Euro 7.280k respectively. There are no short-term loans as at the end of the fiscal year.

For better monitoring and managing the Liquidity Risk, the entities within the Group prepare Cash Flow provisions in a tactical basis.

The analysis of contractual payables of financial liabilities for the Group and the Company are as follows:

# The group

| € <i>k</i>                | Up to 1 year | From 2 to 5 years | 5+ years | Total 31/12/2020 |
|---------------------------|--------------|-------------------|----------|------------------|

# c) Market Risk

Market risk is the risk of losses on financial investments caused by adverse price movements. Examples of market risk are: changes in equity prices or commodity prices, interest rate moves or foreign exchange fluctuations of the Group and the Company. The Market risk management of the Group and the Company constitutes the monitoring and management of the exposure within acceptable limits.

The main Market Risks along with their management policies are described below:

#### a. Interest rate risk

Interest rate risk is the probability of a decline in the value of an asset resulting from unexpected fluctuations in interest rates. The Group's exposure in Interest Rate Risk derived mainly from the Group's Financial loans.

The Group manages the Interest Rate Risk making use of (non-hedging) Financial Instruments.

The borrowings according to Interest rate, are as follows:

|                           | The        | group      | The company |            |
|---------------------------|------------|------------|-------------|------------|
| $\in k$                   | 31.12.2020 | 31.12.2019 | 31.12.2020  | 31.12.2019 |
| Loans under standard rate | 0          | 1.500      | 0           | 1.500      |
| Total                     | 0          | 1.500      | 0           | 1.500      |

#### b. Currency Risk

Currency risk arises from the change in price of one currency in relation to another. Investors or companies that have assets or business operations across national borders are exposed to currency risk that may create unpredictable profits and losses

The Group has business operations in South-East Europe and therefore is exposed to currency risk, which is derived from the changes in currencies of those countries. The main currencies for the Group's and company's transactions are Euro, Bulgarian **BGN** and Romanian RON

The Group monitors the changes in those currencies, as to, any time, has sufficient deposits in foreign currencies in order to eliminate the exposure of currency risk in Cash Flow. There is no hedging for currency risks which has no impact in Cash Flow (e.g. currency conversion of financial statements for consolidation purpose).

# c. Capital Risk

The main purpose of the Group and the Company when managing capital is to ensure continuous activity in order to provide profit for shareholders and benefits for other stakeholders and also to maintain an optimal capital structure, which will reduce the cost of capital.

The Group and the Company manage the Capital Structure and proceed to adjustments, where is necessary, as to conform to the General Economic environment.

The basic financial tool for the Capital monitoring is the "Leverage ratio" which is monitored under Group level. The net Financial leverage includes the Interest loans as well as the long term and short-term liabilities from Leases (after adapting the new IFRS 16 from 1 January 2020), deducting the cash and cash equivalents.

#### 32. EFFECTS OF THE COVID-19 PANDEMIC

2020 was marked by the unprecedented crisis in global health and economy led by the spread of the Covid-19 pandemic and the response measures taken at domestic and international level. A significant part of the domestic and global economy ceased activity in whole or partially for a significant period of time and significant restrictions were placed on the movement of citizens, with the result that all domestic and international consumption was dealt a major blow in both quantitative and qualitative terms.

In Greece, the virus was first detected at the end of February 2020, leading to national quarantine and the Management adopting a pandemic plan, implemented in the first half of March, and responding immediately to national and international changes. In early May, a gradual relaxation of quarantine restrictions began, which continued until June. During the summer, however, the increase in Covid-19 cases in Greece led to the early end of the tourist season and the reintroduction of restrictive measures while measures of limited reopening of shops were implemented during the Christmas holiday season. Throughout the pandemic, the Management acted continuously on the basis of the instructions and decisions of all relevant public organizations, in accordance with the requirements and action plan adopted by the Greek authorities.

The pandemic significantly accelerated the Group's digital transformation, as changes were made to its day-to-day operations. Since the start of quarantine, the Management has also taken a number of preventive measures, with regard to the health and safety of its employees, which is its main priority, implementing all protocols required in accordance with the instructions of the competent health authorities and taking all necessary measures by activating strict regulations, such as the extensive use of "teleworking", the restriction on internal and external meetings with a physical presence, the distribution of protective equipment to workers, the organization of seminars on how to deal with the new conditions created by the pandemic, ensuring the existence of continuous ventilation of buildings in order to significantly eliminate the concentration of particles indoors as well as the rearrangement of office spaces, so that the layout of the jobs ensures comfort, proper ventilation and adequate safety distances between workers.

The pandemic, as was normal, brought about a significant recession and insecurity in the global and Greek economy. The decrease in consumption and in the construction sector and the restriction of investments led, as expected, to a significant delay in the execution of projects which combined with the overall decrease in consumer expenditure led to a decrease in sales of the Company and the Group. As a result, management has adjusted its cost structure to limit the negative effects of the fall in its sales, with the aim of keeping the profitability of the Company and the Group stable.

Next year, 2021, the challenges that businesses will have to face are expected to be significant. The way economies operate at both domestic and international level has undergone structural changes during 2020 and these changes are expected to have an impact on consumer habits as well. Consumers and businesses will be faced with the consequences of the prolonged cessation of economic activity due to the measures taken to tackle the pandemic and it is very likely that pressure will be exerted on household consumption and, by extension, on the financial figures of businesses due to the recession in which both the European and Greek economy have been affected.

While the negative impact of the Covid-19 pandemic is expected to gradually subside in 2021 as the pace of vaccinations accelerates, travel restrictions will be lifted and travel and tourism will return, AHI Carrier Group expects, through the opening up of the economy and investment, a progressive but measured return to better operating conditions and revenue growth, from the second half of the year onwards, as the EU's recovery and resilience plans, if implemented, are also expected to significantly boost demand in all the countries where the Group operates.

In this context, management remains vigilant and continues to implement strict cost rationalization measures in all sectors to support the Group's profitability and cash flow, while continuing to invest in infrastructures that ensure its comparative advantage and future growth. Management also continuously examines the very demanding conditions and risks to which the Group is exposed for its business activities and has concluded that coronavirus disease is not expected to have a material impact on the results of its operations and its financial performance in the next financial year (01/01/2021 - 31/12/2021) as it is estimated that there will be growth in turnover and improved profitability. The Administration, however, will continue to closely monitor the situation and assess the need for individual actions if the period of disruption is extended again.

The Group will remain committed in 2021 to achieving its annual business objectives, while creating the conditions for its long-term development. Special emphasis will be placed on customer-oriented processes and internal corporate processes, further improving the customer experience and achieving a more unassuming and flexible operating model.

# 33. SUBSEQUENT EVENTS

In respect of an audit carried out by the Directorate-General for Competition at the Company's offices on 7 February 2019, following an own-initiative investigation and pursuant to No. Cfi. 683/29.01.2019 control order of the Chairman of the Competition Committee during which various documents were displayed and collected, the Company was requested, by letter of 3 December 2020 from the Competition Committee, to provide additional information, which the Company also submitted to the Commission on 7 January 2021. In addition, on April 1, 2021, the Company received a summons from the Competition Commission to submit a memorandum. At this stage, any assessment of the duration and outcome of this investigation is still considered premature and therefore no provision has been made in the corporate and consolidated financial statements in this respect.

There were no significant events after the reporting period, other than those listed above, that are relevant to the understanding of the separate and consolidated financial statements that are required to be reported in accordance with International Financial Reporting Standards.

# Independent Auditors' Report (Translated from the original in Greek)

To the sole Shareholder of

AHI CARRIER SOUTH EASTERN EUROPE AIR-CONDITIONING SINGLE MEMBER SOCIETE ANONYME

# Report on the Audit of the Separate and Consolidated Financial Statements Opinion

We have audited the accompanying separate and consolidated financial statements of AHI CARRIER SOUTH EASTERN EUROPE AIR-CONDITIONING SINGLE MEMBER SOCIETE ANONYME (the "Company") which comprise the separate and consolidated statement of financial position as at 31 December 2020, the separate and consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying separate and consolidated financial statements present fairly, in all material respects, the financial position of AHI CARRIER SOUTH EASTERN EUROPE AIR-CONDITIONING SINGLE MEMBER SOCIETE ANONYME and its subsidiaries (the "Group") as at 31 December 2020 and its financial performance and its cash flows for the year then ended, in accordance with International Financial Reporting Standards as adopted by the European Union.

# **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISA), which have been incorporated in Greek legislation. Our responsibilities under those standards are further described in the "Auditors' Responsibilities for the Audit of the Separate and Consolidated Financial Statements" section of our report. We are independent of the Company and its consolidated subsidiaries in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants and the ethical requirements that are relevant to the audit of the separate and consolidated financial statements in Greece and we have fulfilled our ethical responsibilities in accordance with the

requirements of the applicable legislation and the aforementioned Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Management's Responsibilities for the Separate and Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the separate and consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as Management determines is necessary to enable the preparation of separate and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate and consolidated financial statements, management is responsible for assessing the Company's and the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and the Group or to cease operations, or has no realistic alternative but to do so.

# Auditors' Responsibilities for the Audit of the Separate and Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the separate and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs which have been incorporated in Greek legislation will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate and consolidated financial statements.

As part of an audit in accordance with ISAs, which have been incorporated in Greek legislation, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the separate and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence

that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's and the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the separate and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company and the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate and consolidated financial statements, including the disclosures, and whether the separate and consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on these consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Report on Other Legal and Regulatory Requirements

Taking into consideration that Management is responsible for the preparation of the Board of Directors' Report, pursuant to the provisions of paragraph 5 of Article 2 (part B) of Law 4336/2015, we note that:

- a. In our opinion, the Board of Directors' Report has been prepared in accordance with the applicable legal requirements of Articles 150 and 153 of Law 4548/2018 and its contents correspond with the accompanying separate and consolidated financial statements for the year ended 31 December 2020.
- b. Based on the knowledge acquired during our audit, relating to the Company AHI CARRIER SOUTH EASTERN EUROPE AIR-CONDITIONING SINGLE MEMBER SOCIETE ANONYME and its environment, we have not identified any material misstatements in the Board of Directors' Report.
