PRODUCT FICHE																																																																			
Trade Mark	Carrier																																																																		
Model: Indoor	42QCE018D8SH																																																																		
Model: Outdoor	38QCE018D8SH																																																																		
Sound power level at standard rating conditions (Indoor/Outdoor) [dB(A)]	58/65																																																																		
Refrigerant type	R32																																																																		
GWP ^[1]	675																																																																		
Charge amount ^[1] [kg]	0.85																																																																		
CO2 equivalent ^[1] [tonnes]	0.574																																																																		
SEER	8.5																																																																		
Energy efficiency class in cooling	A+++																																																																		
Annual electricity consumption in cooling ^[2] [kWh/a]	206																																																																		
Design load in cooling mode (Pdesign) [kW]	5.0																																																																		
SCOP (average heating season) [W/W]	4.6																																																																		
Energy efficiency class in heating (average season)	A++																																																																		
Annual electricity consumption in heating (average season) ^[2] [kWh/a]	1218																																																																		
Design load in heating mode (Pdesign) [kW]	4.0																																																																		
Declared capacity at reference design condition (Average) [kW]	3.40																																																																		
Back up heating capacity at reference design condition (Average) [kW]	0.600																																																																		
SCOP (Warmer) [W/W]	5.7																																																																		
Energy efficiency class in heating (Warmer)	A+++																																																																		
Annual electricity consumption in heating (Warmer) ^[2] [kWh/a]	1081																																																																		
Design load in heating mode (Pdesign) (Warmer) [kW]	4.4																																																																		
Declared capacity at reference design condition (Warmer) [kW]	4.4																																																																		
Back up heating capacity at reference design condition (Warmer) [kW]	0.000																																																																		
[1] Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. This appliance contains a refrigerant fluid with a GWP equal to [675]. This means that if 1kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be [675] times higher than 1kg of CO ₂ , over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional																																																																			
Contains fluorinated greenhouse gases.																																																																			
Importer: AHI Carrier S.E. Europe Single Member S.A. Address: 18, Kifissou Avenue, 104 42 Athens, Attiki Greece																																																																			
Manufacturer: Century Carrier Residential Air-conditioning Equipment Co., Ltd. Address: Room 505, 5/F, Tower 3, Enterprise Square, 9 Sheung Yuet Road, Kowloon Bay, Kowloon, Hong Kong																																																																			
[2] Energy consumption "XYZ" kWh per year, based on standard test results. Actual energy consumption will depend on how the appliance is used and where it is located.																																																																			
Note: Please check the model information above according to the model name on the nameplate.																																																																			

技术要求 (版本号 E, 2017-03)

1. 此为客牌“CARRIER”产品信息卡。
2. 产品信息卡印刷颜色为黑色。
3. 该信息卡的幅面大小为：A4, 并在背面右下角空白处印刷物料编码。
4. 适用于客牌“CARRIER”机型。
5. 产品应符合QMK-J036. 1010《产品说明书技术条件》的有关要求。
6. 有RoHS指令要求的物料应符合QMK-J000. 1002《产品中限制使用有害物质的技术标准》。
7. 有REACH要求的物料应符合QMK-J000. 1008《REACH法规要求技术标准》。

Technical requirements(Ver. E,2017-3)

1. This manual(or similar material) is ___brand, which is to change the basic manual's trade mark, model and data.
(Or: providing edition to new customer)
2. The front page and inside page trade mark are dimensioned in the drawing above(or similar material) , the color is Pantone:
(undimensioned font and pattern printing color is black)
3. The manual's dimension is:(directly list the actual dimension width * hight,common occasion is A4)
4. This manual is available to the ___brand's ___unit.
5. Finished manuals shall comply with the relevant requirements QMK-J036.1010 technical requirementsfor Product Manual.
6. Materials subject to RoHS shall comply with QMK-J000.1002 Technical Standard for Restricted Hazardous Substance in the Products of MIDEA.
7. Materials subject to REACH shall comply with QMK-J000.1008 Technical Standard for REACH of MIDEA.

16122000A84780
